

Mr M S Absar is an Oncoplastic trained Consultant Breast surgeon with Extensive experience in managing Breast conditions – benign, malignant and breast asymmetry.

He obtained his fellowship in surgery (FRCS) from the Royal College of Edinburgh in 2001 and started his surgical registrar rotation in 2002 under the North Western Deanery. He completed his FRCS in General Surgery in 2007 and to further enhance his experience and oncoplastic skills he spent a year out at the Addenbrookes Hospital, Cambridge.

He has been working as Consultant Breast Oncoplastic Surgeon at North Manchester General Hospital and Royal Oldham Hospital since 2008. He has published a number of papers in journals and regularly presents at National and International Conferences. Since joining the Pennine Acute NHS Trust he has started the sentinel lymph node biopsy for axillary staging in early breast cancers. His main area of interest is oncoplastic breast conservation and breast reconstruction.

He has been the Trust Surgical Audit lead and currently the Clinical Director for Breast surgery at Pennine Acute Hospital NHS Trust.
